

CORPORATE CULTURE INTELLIGENCE

Build a Corporate AI That Reflects How Your Company Thinks

Turn your company's experience, values, and way of solving problems into intelligence every employee can use.

Preserve knowledge

Keep experience available

Align decisions

Across departments

Strengthen culture

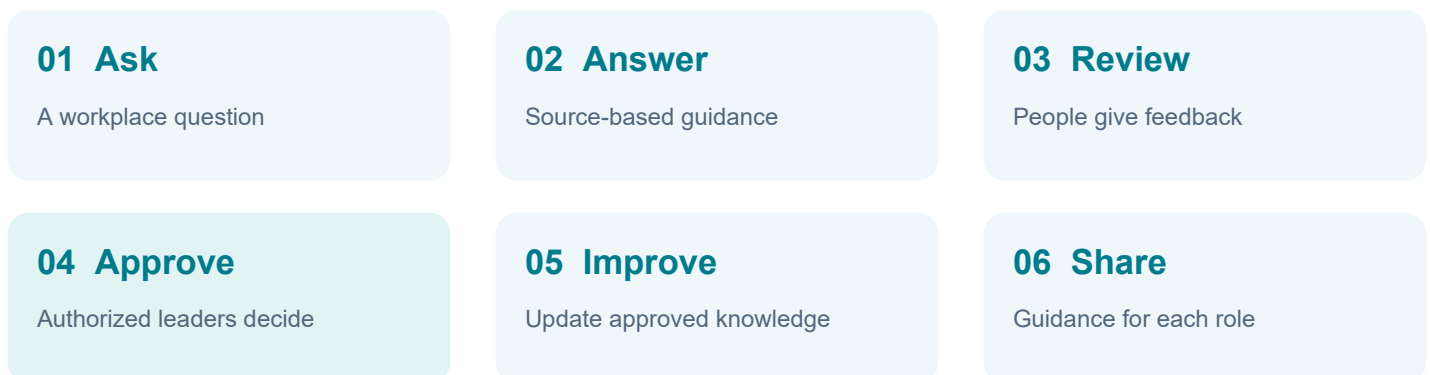

As your company grows

Your knowledge. Your way of working.

Yudaro combines approved company knowledge, leadership principles, operating experience, and governed employee feedback to create more consistent, company-aligned guidance across every department.

ASK. LEARN. REVIEW. IMPROVE.

Private, permission-controlled, source-based, and guided by human approval.

Implementation scope is agreed and tested. Sensitive conversations can be excluded; feedback is not automatic training. Leaders can correct, retire or update knowledge as culture evolves.

See your business in the possibilities.

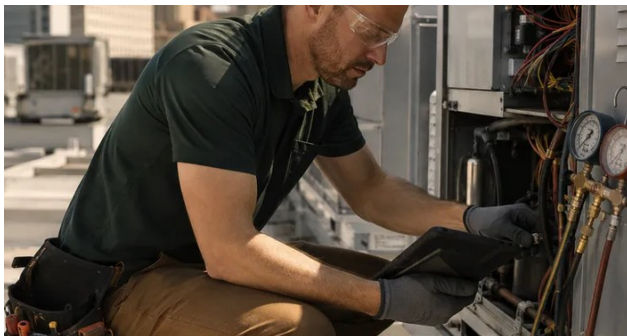

Private AI guidance. Connected ERP records. Decisions led by your people.

DISTRIBUTION

Protect the relationship.

Use approved margin and delivery policies when an urgent customer request arrives.

HVAC + FIELD SERVICE

Give every visit context.

Connect service history with approved escalation and customer-care practices.

RESTAURANTS

Make service consistent.

Connect POS and ERP with approved training, complaint handling and service standards.

Also built for

Construction / Retail / Manufacturing / Professional services

Illustrative workflows. Sources, permissions and controls are scoped for each deployment.

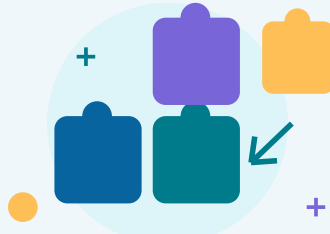

Turn Your Company's Experience Into Corporate Intelligence.
